

2. NATIONAL CONGRESS OF TURKISH HIP PRESERVATION SOCIETY

29 January 2016 Thursday

HALL A

10.30 - 11.20 Basic Knowledge and Differential Diagnosis of the Hip Joint**Session Chairs: Hatem Said, Sefa Müezzinoğlu**10.30 - 10.40 Differential Diagnosis of Hip Pain - **Niyazi Ercan**10.40 - 10.50 Physical Examination of the Hip Joint - **Serda Duman**10.50 - 11.00 Radiological Evaluation of the Hip Joint - **Cem Yıldırım**11.00 - 11.10 Arthroscopic Anatomy of the Hip Joint (Central, Peripheral, Extra-Articular Compartments) - **Bruno Capurro**

11.10 - 11.20 Discussion

11.20 - 12.10 Treatment Approaches in Femoroacetabular Impingement**Session Chairs: Oliver Marin-Pena, Ömür Çağlar**11.20 - 11.30 Surgical Indications for FAI: When is it Early, When is it Late? - **Oliver Marin-Pena**11.30 - 11.40 Basic Techniques in Hip Arthroscopy: Patient Positioning, Portals - **Gökhan Ayık**11.40 - 11.50 Different Technical Approaches in Hip Arthroscopy (Differences in Access to Compartments and Capsule Management) - **Hatem Said**11.50 - 12.00 Rehabilitation in FAI Surgery - **Filiz Can**

12.00 - 12.10 Discussion

12.10 - 12.30 OPENING CEREMONYCongress President - **Tahsin Beyzadeoğlu**Honorary Congress President - **Asım Kayaalp**KEKCD President - **Ramazan Akmeşe****12.30 - 13.30 LUNCH****13.30 - 14.15 VIDEO PRESENTATIONS - Technical Details in Arthroscopic Treatment of FAI****Session Chairs: Şafak Şahlan, Ümut Ökten**13.30 - 13.37 Critical Points in Cam Resection - **Ramazan Akmeşe**13.37 - 13.44 Critical Points in Pincer and AHS Resection - **Asım Kayaalp**13.44 - 13.51 Labral Repair - **Gökhan Polat**13.51 - 13.58 Labral Augmentation and Reconstruction - **Barış Kocaoğlu**13.58 - 14.05 Capsule Repair - **Ahmet Fırat**

14.05 - 14.15 Discussion

14.15 - 15.00 CASE DISCUSSION**Session Chairs: Reha Tandoğan, Metin Polat****Faculty: Oliver Marin-Pena, Hatem Said, Athanasios Papavasiliou, Bruno Capurro, Barış Kocaoğlu****15.00 - 15.20 COFFEE BREAK****15.20 - 15.40 KEYNOTE LECTURE****Session Chair: Tahsin Beyzadeoğlu**How Should Surgical Approaches be in Complex FAI Cases? - **Asım Kayaalp****15.40 - 16.30 Joint Preservation Surgery in Dysplastic Hip****Session Chairs: Erdem Şahin, Marco Ezechieli**What is Hip Dysplasia? Radiological and Clinical Evaluation - **Vedat Öztürk**Treatment Options and Decision-Making in Borderline Hip Dysplasia - **Athanasios Papavasiliou**Periacetabular Osteotomy: Indications and Basic Techniques - **Bülent Atilla**How to Manage Femoral Version Abnormalities? - **Mümtaz Alparslan**

16.10 - 16.20 Discussion

16.30 - 17.30 Treatment Options in Extra-Articular Pathologies**Session Chairs: Ender Sarioğlu, Alp Er Tunga Bölükbaşı**16.30 - 16.40 Ischiofemoral Impingement and Deep Gluteal Pain - **Serdar Hakan Başaran**16.40 - 16.50 Snapping Hip: What to Do? - **Mehmet Fevzi Çakmak**16.50 - 17.00 Management of Proximal Hamstring Injuries - **Kürşat Teker**17.00 - 17.10 Management of Trochanteric Bursitis and Gluteus Medius Tears - **Anıl Özбек**17.10 - 17.20 Role of Orthobiologics in Extra-Articular Pathologies - **Bilal Kürk**

17.20 - 17.30 Discussion

HALL B

11:00 - 12:00 FREE PAPERS**Session Chairs: E. Anıl Özбек, Serhat Akçaalan**

11:00 - 11:05 OP - 01 Deep-seated giant myositis ossificans: A diagnostic blind spot and the importance of early ultrasonographic screening

11:05 - 11:10 OP - 02 The relationship between ischiofemoral distance and deep gluteal pain developing after lumbar posterior instrumentation in degenerative spines

11:10 - 11:15 OP - 03 Management of femoroacetabular impingement in athletes: a retrospective study

11:15 - 11:20 OP - 04 Long-Term Outcomes After Hip Arthroscopy for Femoroacetabular Impingement: PASS, MCID, Return to Sport, and Revision Rates at a Minimum Five-Year Follow-Up

11:20 - 11:25 Discussion

11:25 - 11:30 OP - 05 Is femoroacetabular impingement morphology associated with precollapse femoral head avascular necrosis?

11:30 - 11:35 OP - 07 The coexistence of developmental hip dysplasia and cam-type femoroacetabular impingement in Kabuki syndrome: A case report

11:35 - 11:40 OP - 08 Total hip arthroplasty in patients under 16: replacing the hip while preserving the future

11:40 - 11:45 OP - 09 Surgical technique outweighs wire position in predicting complications after tension band wiring of patellar fractures

11:45 - 11:50 Discussion**13.30 - 15.10 FREE PAPERS****Session Chairs: Serdar Kamil Çepni, Onur Çetin**

13:30 - 13:35 OP - 10 Comparison of clinical results of gracilis and semitendinosus grafts in patients with MPFL reconstruction

13:35 - 13:40 OP - 11 The Effect of Treatment Modality on Functional Recovery in Partial Anterior Cruciate Ligament Injuries: A Retrospective Analysis

13:40 - 13:45 OP - 13 Comparison of the effects of implants used for fixation in the repair with pull-out technique of meniscus root tear on pain and functional results

13:45 - 13:50 OP - 14 Evaluation of types of medial meniscus tear, associated pathologies and repair techniques in patients undergoing knee arthroscopy

13:50 - 13:55 Discussion

13:55 - 14:00 OP - 15 Morphometric analysis for graft planning in posterolateral corner reconstruction-Cadaveric Study

14:00 - 14:05 OP - 16 A retrospective comparative analysis of intraoperative platelet-rich plasma on functional outcomes following anterior cruciate ligament reconstruction

14:05 - 14:10 OP - 17 Injury Epidemiology and Time-Loss Analysis in Professional Goalkeepers from Europe's Big Five Leagues: A 6-Year Retrospective Study

14:10 - 14:15 OP - 18 Low Birth Weight and Low Birth Length May be a Parameter Predisposing to the Development of Trochlear Dysplasia, Case-Control Study

14:15 - 14:20 Discussion

14:20 - 14:25 OP - 19 Preoperative Patellar and Patellar Tendon Length Measurements Can Predict Quadriceps Tendon Autograft Length in Anterior Cruciate Ligament Reconstruction

14:25 - 14:30 OP - 20 Isolated Medial Meniscus Posterior Root Repair Is Not Sufficient To Prevent Postoperative Meniscus Extrusion and Varus Progression: A Cohort Study With Minimum Three-Year Follow-Up

14:30 - 14:35 OP - 21 Large Language Models in Sports Injury Care: A Comparative Expert Evaluation of GPT-4o and GPT-5

14:35 - 14:40 OP - 22 All-Inside ACL Reconstruction Using Peroneus Longus Autograft with Dual-Camera Support Without a Posteromedial Portal

14:40 - 14:45 Discussion

14:45 - 14:50 OP - 23 Clinical outcomes following open reduction and screw fixation for PCL avulsion fractures through the posterior approach

14:50 - 14:55 OP - 24 Results of Our Patients with Retrograde Intramedullary Nailing and Plate Fixation in Distal Femoral Metaphyseal Fracture Pseudarthrosis

14:55 - 15:00 OP - 25 Pediatric meniscus tears: Epidemiology of patients treated surgically

15:00 - 15:05 OP - 26 Comparison of Radiological Bone Morphology Parameters in Repairable and Irreparable Hip Labrum Pathologies

15:05 - 15:10 Discussion**15:10 - 15:30 COFFEE BREAK****15.30 - 16.30 FREE PAPERS****Session Chairs: Enis Yıldırım, Aytek Hüseyin Çelikeöz**

15:30 - 15:35 OP - 27 Association Between Acetabular Overcoverage and Increased Risk of Femoral Neck Fracture in Young Adults

15:35 - 15:40 OP - 28 Early Radiographic Outcomes of Triple Pelvic Osteotomy in Legg-Calvé-Perthes Disease

15:40 - 15:45 OP - 29 Clinical and Magnetic Resonance Imaging Outcomes of Lesion-Specific Multiple Drilling-Core Decompression and Autologous Bone Marrow Aspirate Concentrate (BMAC) Application in Avascular Necrosis of the Femoral Head Introduction

15:45 - 15:50 OP - 30 Diagnostic Challenges in Intra-articular Hip Pain: A Case Report Demonstrating Clinical, Radiological, and Histopathological Incongruence

15:50 - 15:55 OP - 31 The Impact of a Hybrid Approach on Accuracy and Reliability in AI-Powered Patient Information Materials: A Comparative Study on Total Hip Arthroplasty

15:55 - 16:00 Discussion

16:00 - 16:05 OP - 32 Treatment of Adolescent Femoral Head Avascular Necrosis Secondary to Long-term Steroid Use for Pilocytic Astrocytoma with the Lightbulb Procedure: A Case Report

16:05 - 16:10 OP - 33 Patient-acceptable symptom state following platelet-rich plasma versus corticosteroid injection in greater trochanteric pain syndrome

16:10 - 16:15 OP - 35 Trans-Ethnic Genomic Analysis Of Avascular Necrosis

16:15 - 16:20 OP - 36 The Effect of Screw Orientation Following Triple Cannulated Screw Fixation in Pauwells Type 2 Femoral Neck Fractures on Clinical Outcomes

16:20 - 16:25 OP - 37 Management of femoral neck stress fractures in athletes: a retrospective study over five years

16:25 - 16:30 Discussion

HALL A

08.30 - 09.20	How to Approach Failed Hip Arthroscopies with Case Examples Session Chairs: Ömer Nusuhi Altay, Izzet Bingöl <i>Common Causes and Detection Methods - Oliver Marin-Pena</i> 08.30 - 08.40 Over- or Under-Resection - Mehmet Erdil 08.40 - 08.50 Labral Insufficiency - Reha Tandoğan 09.00 - 09.10 Capsular Insufficiency - Saygın Kamacı 09.10 - 09.20 Discussion
09.20 - 09.45	KEYNOTE LECTURE Session Chair: Tahsin Beyzadeoğlu Evolving Concepts in the Diagnosis and Management of FAI- Vikas Khanduja
09.45 - 10.30	Approach to Prearthritic Hip Session Chairs: Tolgay Şatana, Yavuz Şahbat 09.45 - 09.55 Clinical and Radiological Evaluation Vishnu Senthil Kumar 09.55 - 10.05 The Role of Physiotherapy - İpek İzik 10.05 - 10.15 Can the Outcome of FAI and Arthroscopy of Prearthritic Hip be Predicted? Enis Yıldırım 10.15 - 10.25 The Role of Orthobiologic Augmentation - Engin Çetinkaya 10.25 - 10.30 Discussion
10.30 - 10.45	COFFEE BREAK
10.45 - 11.30	Avascular Necrosis of the Femoral Head Session Chairs: Fatih Yıldız, Serhat Gürbüz Diagnosis and Staging - Serhat Akçaalan 09.55 - 11.05 Core Decompression and Orthobiologics - Tahsin Beyzadeoğlu 11.05 - 11.15 Trap Door, Light Bulb, Grafting, Osteotomy - Marco Ezechieli 11.15 - 11.25 Limits of Joint-Preservation Surgery and The Role of Arthroplasty - İbrahim Tuncay 11.25 - 11.30 Discussion
11.30 - 12.15	Interactive Course Lectures - Capsule and Microinstability in FAI Surgery Session Chairs: Barış Yılmaz, Yasin Güler 11.30 - 11.40 Should We Leave the Capsule Open? What Does the Evidence Say? Metin Polat 11.40 - 11.50 I Always Close the Capsule: What Does the Evidence Say? Safa Gürsoy 11.50 - 12.00 Microinstability: The Perspective of a Physiotherapist Eser Ateş Numanoğlu 12.00 - 12.10 Microinstability: The Perspective of an Orthopaedic Surgeon Marc Safran 12.10 - 12.15 Discussion
12.15 - 12.30	2. NATIONAL CONGRESS OF TURKISH HIP PRESERVATION SOCIETY CLOSING & SICOT SPORTS MEETING OPENING Chair of SICOT Sports - Tahsin Beyzadeoğlu SICOT National Delegate - Mahmut Nedim Aytekin TOTBID President - Önder Kalenderer SICOT President - Vikas Khanduja
12.30 - 13.30	LUNCH

SICOT SPORTS MEETING 2026
SHOULDER

30 Ocak 2026 Cuma

13.30 - 13.50	KEYNOTE LECTURE Session Chair: Tahsin Beyzadeoğlu Current Concepts in Rotator Cuff Repair - Mehmet Demirhan
13.50 - 14.10	KEYNOTE LECTURE Session Chair: Kilian List Current Concepts in Shoulder Instability - Doruk Akgün
14.10 - 14.40	BATTLE 1 - Bankart Repair vs. Latarjet - What is the Gold Standard for Anterior Instability? Session Chairs: Kerem Bilsel, Doruk Akgün, Kilian List 14.10 - 14.20 Pro Bankart Repair - Hatem Said 14.20 - 14.30 Pro Latarjet - Ali Erşen 14.30 - 14.40 Discussion
14.40 - 15.10	BATTLE 2 - Bony Bankart - Dealing with Glenoid Bone Loss Session Chairs: Kerem Bilsel, Doruk Akgün, Kilian List 14.40 - 14.50 Pro Eden-Hybinette - Kilian List 14.50 - 15.00 Pro Latarjet - Atacan Atalar 15.00 - 15.10 Discussion
15.10 - 15.40	BATTLE 3 - Humeral Bone Loss - Hill Sachs Lesion Session Chairs: Kerem Bilsel, Doruk Akgün, Kilian List 15.10 - 15.20 Pro Remplissage - Hatem Said 15.20 - 15.30 Pro Allograft/Arthroplasty - Mehmet Armançil 15.30 - 15.40 Discussion
15.40 - 16.10	COFFEE BREAK
16.10 - 16.35	Rotator Cuff Partial Tears Session Chairs: Doruk Akgün, Hatem Said, Atacan Atalar 16.10 - 16.20 Conservative vs. Surgical Options - Hany Elsayed 16.20 - 16.35 Case Presentations - Mehmet Armançil, Atacan Atalar
16.35 - 17.00	Partial Reconstruction for Massive Rotator Cuff Tears Session Chairs: Doruk Akgün, Hatem Said, Atacan Atalar 16.35 - 16.45 Valuable Strategy or Insufficient Solution? - Ali Erşen 16.45 - 17.00 Case Presentations - Furkan Aral, Kerem Bilsel
17.00 - 17.25	What To Do with the Biceps? Session Chairs: Doruk Akgün, Hatem Said, Atacan Atalar 17.00 - 17.10 Patch vs Transposition vs SCR - Kerem Bilsel 17.10 - 17.25 Case Presentations - Cem İsmail Güngör, Kilian List
17.25 - 17.50	Tendon Transfer for Massive Rotator Cuff Tears Session Chairs: Doruk Akgün, Hatem Said, Atacan Atalar 17.25 - 17.35 Latissimus Dorsi vs Lower Trapezius vs Muscle Advancement - Kerem Bilsel 17.35 - 17.50 Case Presentations - Doruk Akgün, Mehmet Armançil
17.50 - 18.00	Closing Remarks & Take-Home Messages

HALL B

08.30 - 10.40	SOZLÜ BİLDİRİ OTURUMU Oturum Başkanları: Niyazi Ercan, Gökhan Ayık
08.30 - 08.35	OP - 38 Clinical Impact of Preoperative Femoral Head-Neck Bone Marrow Edema on Outcomes After Hip Arthroscopy
08.35 - 08.40	OP - 39 Factors Predicting Failure Following Cannulated Screw Fixation of Femoral Neck Fractures: The Impact of Reduction Quality, Avascular Necrosis, and Femoral Neck Shortening
08.40 - 08.45	OP - 40 "Endoscopic Treatment of Calcific Tendinitis of the Gluteus Medius: A Case Report and Review of the Literature
08.45 - 08.50	OP - 41 Comparative effectiveness of core decompression, bone marrow aspirate concentrate augmentation, and adipose-derived mesenchymal stem cell augmentation in early-stage avascular necrosis of the femoral head
08.50 - 08.55	Discussion
08.55 - 09.00	OP - 42 Hip Arthroscopy-Assisted Cannulated Screw Fixation of a Femoral Neck Fracture in a Young Adult: A Case Report
09.00 - 09.05	OP - 43 Femoroacetabular Impingement on Social Media: A Cross-Sectional Analysis of Content Quality and Educational Accuracy
09.05 - 09.10	OP - 44 Clinical and Magnetic Resonance Imaging Outcomes of Radiofrequency Chondroplasty for Koman Stage 1-2 Chondral Lesions During Femoroacetabular Impingement Surgery
09.10 - 09.15	OP - 45 Is Return to Running Possible After Ganz Osteotomy? Two-Year Outcomes of High Functional Performance
09.15 - 09.20	Discussion
09.20 - 09.25	OP - 46 Evaluation of quality and readability of hip arthroscopy patient information content generated by contemporary artificial intelligence models: a comparison of chatgpt-5.2 and deepseek r1
09.25 - 09.30	OP - 47 Tranexamic acid in hip arthroscopy: does it reduce blood loss and truly improve surgical visualization? a systematic review and limited meta-analysis
09.30 - 09.35	OP - 48 Comparison of Short-Term Outcomes of Hip Hemiarthroplasty Performed via Minimally Invasive and Conventional Approaches
09.35 - 09.40	OP - 49 Clinical and Radiological Outcomes of Femoral Head Fractures Treated With Safe Surgical Hip Dislocation Technique
09.40 - 09.45	Discussion
09.45 - 09.50	OP - 50 Comparative effectiveness of core decompression, bone marrow aspirate concentrate augmentation, and adipose-derived mesenchymal stem cell augmentation in early-stage avascular necrosis of the femoral head
09.50 - 09.55	OP - 51 The Relationship Between Clinical Outcomes and Spinopelvic Parameters Following Hip Fracture: An Observational Retrospective Study
09.55 - 10.00	OP - 52 The impact of heterotopic ossification on clinical outcomes after hip arthroscopy for femoroacetabular impingement and the protective role of indomethacin prophylaxis
10.00 - 10.05	OP - 53 The impact of acute tele-rehabilitation on pain and functional improvement in symptomatic femoroacetabular impingement (FAI): a pilot study
10.05 - 10.10	OP - 54 Fracture Site Arthroscopy through Modified Stoppa Approach: Fragment Excision and Alignment Control in Anterior Column Acetabular Fractures – A Case Series of Three Patients
10.10 - 10.15	Discussion
10.15 - 10.20	OP - 55 Sequential, multifocal, and delayed avascular necrosis developing in four major joints after steroid treatment
10.20 - 10.25	OP - 56 The Relationship Between Tear Duration and Retraction in Adult Patients with Rotator Cuff Tears
10.25 - 10.30	OP - 57 Turkey's position within the academic literature pertaining to sports surgery: A bibliometric evaluation utilizing the Web of Science database
10.30 - 10.35	OP - 58 Heterotopic ossification following acromioclavicular joint dislocation surgery: Complication or favorable outcome? A case report
10.35 - 10.40	Discussion
10.40 - 10.55	COFFEE BREAK
10.55 - 11.20	FREE PAPERS Session Chairs: Ramazan Akmeşe, Bahri Bozgeyik 10.55 - 11.00 OP - 59 The relationship between subscapularis tears, critical shoulder angle, and glenoid version: a retrospective MRI-based study 11.00 - 11.05 OP - 60 Concordance of ChatGPT, DeepSeek, and Gemini Responses on Glenohumeral Osteoarthritis With AAOS Clinical Practice Guidelines 11.05 - 11.10 OP - 61 Evaluation of the Content Quality, Clinical Appropriateness, and Readability of Artificial Intelligence Model Responses to Frequently Asked Patient Questions About SLAP Lesions 11.10 - 11.15 OP - 62 Shoulder MRI Abnormalities in Asymptomatic Professional Female Basketball Players
11.15 - 11.20	Discussion
17.00 - 17.50	FREE PAPERS Session Chairs: George Skarpas, Furkan Aral 17.00 - 17.05 OP - 63 Is there still a place for tibial osteotomies in treatment of gonarthrosis at stage 3 17.05 - 17.10 OP - 65 Simultaneous avulsion of the patellar tendon from the patella and tibial tuberosity in an adolescent athlete: a case report 17.10 - 17.15 OP - 66 The renaissance of trochleoplasty in Poland. 7 years of experience of the Department of Orthopedics and Traumatology of the Movement System for Children and have done more than 103 surgery: trochleoplasty procedures performed using the Bertrier method with reconstruction of the medial patellofemoral ligament using the Goyal method
17.15 - 17.20	Discussion
17.20 - 17.25	OP - 67 Short to medium term outcomes following MPFL reconstruction using single patellar tunnel technique
17.25 - 17.30	OP - 68 Posterior Tibial Offset Ratio (PTOR) Is a New Predictive Factor for Anterior Cruciate Ligament Revision Surgery
17.30 - 17.35	OP - 69 Management of tibial spine fractures in young adult athletes: a series of 10 cases
17.35 - 17.40	OP - 70 Tibial and femoral fixation by the rigidfix system in the ACL (anterior crossed ligament) reconstruction
17.40 - 17.45	Discussion

31 January 2026 Saturday

HALL A

08.30 - 09.30	MENISCUS / CARTILAGE
	Session Chairs: Ramadan Akmege, Jujhar Singh
08.30 - 08.40	Management of Meniscus Lesions in 2026 - Mehmet Erdil
08.40 - 08.50	Meniscus Ramp Lesions - Nestor Moreno-Moreu
08.50 - 09.00	Meniscus Root Lesions - Reha Tandoğan
09.00 - 09.10	Management of Chondral Lesions of the Knee in 2026 - Fabio Valerio Sciarretta
09.10 - 09.20	Osteochondral Allograft in the Knee - Gökhan Meriç
09.20 - 09.30	Discussion
09.30 - 10.30	ACL
	Session Chairs: Turkia Bashir Erouk, Gökhan Meriç
09.30 - 09.40	Management of ACL Injury in 2026 - Hassan Zmerly
09.40 - 09.50	Anatomic ACL Reconstruction - Reha Tandoğan
09.50 - 10.00	ACL Primary Repair - Massimo Piracci
10.00 - 10.10	ALL Reconstruction / Lateral Extraarticular Tenodesis (LET) / Rohan Bidwai
10.10 - 10.20	Ostotomies in ACL Reconstruction - Nestor Moreno-Moreu
10.20 - 10.30	Discussion
10.30 - 10.45	COFFEE BREAK
10.45 - 11.45	PATELLOFEMORAL
	Session Chairs: Mohamed Buajela Rashed, Rohan Bidwai
10.45 - 10.55	Clinical and Radiological Evaluation of Patellofemoral Instability - Muhammad Adeel Akhtar
10.55 - 11.05	Management of Acute First Time Patellar Dislocation - Turkia Bashir Erouk
11.05 - 11.15	MPFL Reconstruction - George Skarpas
11.15 - 11.25	Ostotomies in PF Instability - Onur Çetin
11.25 - 11.35	Patellofemoral Chondral Lesions - Fabio Valerio Sciarretta
11.35 - 11.45	Discussion
11.45 - 12.35	PCL / MULTILIGAMENT
	Session Chairs: Hassan Zmerly, Safa Gürsoy
11.45 - 11.55	Management of Acute Knee Dislocation - Mohamed Buajela Rashed
11.55 - 12.05	Management of PCL Injury - Safa Gürsoy
12.05 - 12.15	Management of PLC Injury - Reha Tandoğan
12.15 - 12.25	Management of PMC Injury - Kürşat Teker
12.25 - 12.35	Discussion
12.35 - 13.45	LUNCH
13.45 - 14.30	CASE DISCUSSION (ACL, PF instability)
	Session Chairs: Reha Tandoğan, Ramadan Akmege
	Faculty: Jujhar Singh, Massimo Piracci, Muhammad Adeel Akhtar, Hassan Zmerly
14.30 - 15.30	VIDEO PRESENTATIONS
	Session Chairs: Fabio Valerio Sciarretta, Ramadan Akmege
14.30 - 14.37	PCL Reconstruction - Jujhar Singh
14.37 - 14.44	All inside ACL Reconstruction with ITO - Tahsin Beyzadeoğlu
14.44 - 14.51	Lateral Extraarticular Tenodesis (LET) - Ramadan Akmege
14.51 - 14.58	MPFL Reconstruction - George Skarpas
14.58 - 15.05	Tibial Tubercle Ostotomy - Anil Özбек
15.05 - 15.12	Anatomic ACL Reconstruction - Berkin Tokar
15.12 - 15.30	Discussion
15.30 - 15.45	COFFEE BREAK
15.45 - 17.40	FREE PAPERS
	Session Chairs: Muhammad Adeel Akhtar, Nestor Moreno-Moreu
15.45 - 15.50	OP - 71 Acute patellar dislocation
15.50 - 15.55	OP - 72 Asymmetry between medial and lateral posterior tibial slope is associated with meniscal tear patterns on knee magnetic resonance imaging
15.55 - 16.00	OP - 73 Détermination de seuils de surdimensionnement de l'embase tibiale associés à la douleur persistante après prothèse totale de genou
16.00 - 16.05	OP - 74 Management of anterior cruciate ligament rupture in athletes: a retrospective study
16:05 - 16:10	Discussion
16.10 - 16.15	OP - 75 Profesyonel bir futbolcudaki görtülen bilateral tibialis anterior kas herniasyonu: dinamik ultrasonun tansal deęeri ve sinir koruyucu primer onarımın etkinlięi
16.15 - 16.20	OP - 76 Effect of bone marrow aspirate concentrate on cartilage regeneration following high tibial osteotomy and microfracture
16.20 - 16.25	OP - 77 Triple-Bundle MCL Reconstruction Technique Using Non-detached Semitendinosus Autograft
16:25 - 16:30	Discussion
16.30 - 16.35	OP - 80 The Lister Patella Tendon Reconstruction Technique
16.35 - 16.40	OP - 81 Popliteal hiatus exposure index (PHEI): a novel magnetic resonance imaging-based radioanatomical parameter predicting rotational instability associated with anterior cruciate ligament (ACL) anterolateral complex (ALC) injuries
16.40 - 16.45	OP - 83 Comparison of ankle eversion strength and jump performance after acl reconstruction using hamstring versus full-thickness peroneus longus tendon autografts in young male patients
16:45 - 16:50	Discussion
16.50 - 16.55	OP - 84 Preoperative Fatty Degeneration as a Key Determinant of Surgical Strategy and Outcomes in Revision Rotator Cuff Surgery
16.55 - 17.00	OP - 86 Evaluation of postoperative loss of reduction after surgical treatment of acromioclavicular joint injuries and the necessity of overcorrection
17.00 - 17.05	OP - 87 Management of superior labrum anterior to posterior lesions in athletes: a series of 15 cases
17:05 - 17:10	Discussion
17.10 - 17.15	OP - 88 Outcomes of suture-first versus anchor-first repair in subscapularis tears with supraspinatus involvement
17.15 - 17.20	OP - 89 Combined radiographic critical shoulder angle and MRI glenoid inclination predicts rotator cuff tear severity on 1.5T MRI
17.20 - 17.25	OP - 90 Fixation à foyer ouvert par broche torsadée et double agrafage dans les fractures proximales de l'humérus : une technique simple, stable et économique
17.25 - 17.30	OP - 91 AI Assisted Measurement of Shoulder Joint Range of Motion: Correlation of Video-Based Pose Estimation with Clinical Goniometric Assessment
17.30 - 17.35	OP - 92 Predictive Value of Bicipital Groove Morphometry for Biceps Tendon Subluxation: A Retrospective Imaging Analysis Of 1,067 Cases
17:35 - 17:40	Discussion
